

## Application for Membership in the Mound Science and Energy Museum Association

The Museum needs you as a member to help in preserving the proud heritage and accomplishments at Mound by all of its former employees. Membership numbers affect credibility with funding agencies and donors as well as relationships with other museums. Please enroll me as a member of the Mound Science and Energy Museum Association (MSEMA). I am interested in preserving the heritage of Mound.

This year we are offering a special recognition level membership for those of you that want to be more involved in further preserving the legacy of Mound Laboratory. Memberships and donations are our only source of income since our DOE grant expired last year. We hope that you will consider a sponsor membership at the \$100 level. Sponsors will be recognized in each quarterly report.

Enclosed is \$20.00 for my individual annual dues, \$30.00 for a family, or \$100 for a Sponsor Level donor.
