**“APOLLO 11: A look back at the objectives  
and achievements of the historic first  
lunar landing mission”**

**Greg Brown**

**August 28, 2019**

**7:00 pm**

**at the Mound Cold War Discovery Center  
1075 Mound Road, Miamisburg, OH**

This July the world celebrated the 50<sup>th</sup> anniversary of Apollo 11 and the dramatic moment when Ohioan, Neil Armstrong, planted a boot on the Moon's surface. This presentation will briefly review the background of Project Apollo, offer a short bio of each of the crewmen, and describe each of the important phases of the mission from lift-off to splashdown. It will conclude by pointing out the noteworthy achievements of that historic mission.

**Greg Brown**

Greg is the Experience Coordinator at the Armstrong Air & Space Museum in Wapakoneta, Ohio. He has a BA in History and sees himself as a frustrated aerospace engineer. He has been involved with the Museum since 2015. Greg is a veteran of the US Air Force and the US Army. During the Cold War he served as a missile security specialist in the Strategic Air Command at Ellsworth AFB, SD.

*For additional details call 937-247-0402. The presentation is free and open to the public and has ample free parking.*
